and Construction Projects

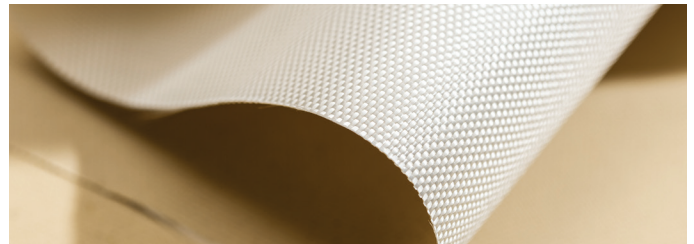

**Scapa Flamesure®**  
Fire Retardant Membrane

## Scapa Flamesure® Fire Retardant Membrane Class A1 Certification (EN 13501-1)

Help prevent damage caused by fire with Scapa Flamesure® Fire Retardant Membrane. This halogen-free product utilises an innovative high performance coating that is free of organic binders and helps reduce smoke and volatile fumes in the event of fire. Scapa Flamesure® provides exceptional performance in meeting A1, the highest level of FR certification within the EN13501-1 construction specification.

### APPLICATIONS

- High performing fire barrier for roofs, walls, facades, rain screens and cladding
- Building envelopes
- Ad-hoc fire proofing

**Scapa Flamesure®: Tomorrow's Fire Protection – Available Today**

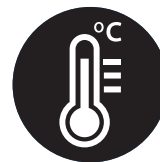

Class A1 for  
EN13501-1

Halogen  
free

High vapour  
permeability - W2

Maintains integrity  
at over 1000+°C

Flexible and  
conformable
